## 1.0 INTRODUCTION

Hebron is an offshore oil field estimated to produce more than 700 million barrels of recoverable resources. The field was discovered in 1980 and is located offshore Newfoundland and Labrador in the Jeanne d'Arc Basin 350 kilometres southeast of St. John's, the capital of Newfoundland and Labrador. It is approximately 9 kilometres north of the Terra Nova Project, 32 kilometres southeast of the Hibernia Project, and 46 kilometres southwest of the White Rose Project. The water depth at Hebron is approximately 93 metres.

The Hebron co-venturers are ExxonMobil Canada Properties (EMCP), Chevron Canada Limited, Suncor Energy Inc. through the Hebron Petro-Canada Partnership, Equinor Canada Ltd. and Nalcor Energy – Oil and Gas Inc. EMCP is the operator of the Hebron Project.

During May 2011, EMCP, on behalf of the Hebron co-venturers, filed the Hebron Benefits Plan with the Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB). The Hebron Benefits Plan was conditionally approved on May 31, 2012 and covers the construction and operations phases of the project.

Five key principles of the Benefits Plan include:

- Meeting local benefits commitments while maintaining the highest levels of safety, environmental performance, efficiency and integrity of our operations;
- Selecting contractors and suppliers that will work diligently with us to deliver benefits to the people of the Province;
- Promoting the development of local skills and industry capacity that leaves a lasting legacy for the communities in which we operate and for the Province;
- Delivering execution certainty so that Hebron delivers best-in-class return on investment to stakeholders, including the Province of Newfoundland and Labrador; and
- Working collaboratively with industry, government, academic and training institutions, community and other stakeholder groups for the effective delivery of benefits.

As outlined in section 45 of the Atlantic Accord Acts, specific provisions of the Hebron Benefits Plan include a plan for:

- The employment of Canadians and, in particular, members of the labour force of the Province of Newfoundland and Labrador;
- Consistent with the Canadian Charter of Rights and Freedoms, providing individuals resident in the Province with first consideration for training and employment in the work program for which the Benefits Plan was submitted;
- Providing manufacturers, consultants, contractors and suppliers and service companies in the Province, and other parts of Canada, with full and fair opportunity to participate on a competitive basis in the supply of goods and services used in any proposed work or activity referenced in the Benefits Plan;

**Q2-2024**

**Hebron Canada-Newfoundland & Labrador Benefits Report**

- Providing first consideration to services provided from within the Province and to goods manufactured in the Province, where those services and goods are competitive in terms of fair market price, quality and delivery;
- The establishment of an office in the Province where appropriate levels of decision-making are to take place; and
- Expenditures for R&D, including education and training, to be carried out in the Province.

This report summarizes the Hebron Project activities for the period of April 1 to June 30, 2024 in the areas of expenditures, contracting and procurement, employment, research and development, and diversity.
